

Graduate Curriculum Committee Meeting Agenda

Grinter Hall
Room 264

Friday
10/7/2010
1:00-2:00

I. Approval of the Minutes from the 06/03/2011 Graduate Curriculum Committee Meeting.

II. Updates to the Committee: The following proposals have been presented to the Graduate Curriculum Committee (GCC) previously. The GCC felt further follow-up and clarifications were necessary before these proposals could move forward to the University Curriculum Committee (UCC). Suggestions and/or follow-up required are noted below.

1. Course Number: LAH 6933

Link to Proposal: <https://approval.ufl.edu/requests/5759>

This proposal was recycled to the department for clarifications:

The Graduate Curriculum Committee (GCC) reviewed this course proposal at the 2/9/11 GCC meeting. The committee is recycling the request for further information. Please indicate the rationale behind the grading scale; the committee recommends using the standard grading scale. They would also like a justification for the level selected, an indication of what makes this a seminar over a traditional rotating topics course, and a sign off from Business. Once these are received the proposal will be reviewed again by the GCC.

Clarifications have now been received, and this proposal is being presented, once again, to the Graduate Curriculum Committee for review.

TO: Graduate Curriculum Committee
FROM: David Geggus

In response to the committee's three requests for information of Feb. 9:

1) The grading scale appended to the syllabus can be ignored since in this class all pieces of work receive a letter grade. Hence the question of equivalency between numerical scores and letter grades does not arise.

2) The class is a seminar because it is taught in a seminar format and represents the highest level of instruction offered by the department in this field. It prepares doctoral and masters students for a subject area which, henceforth, will constitute a compulsory rather than optional part of the graduate program in Latin American History.

3) I am unaware what the phrase "a sign off from Business" means.

2. Course Number: AEB 6645

This proposal was recycled to the department for clarifications:

The Graduate Curriculum Committee requests that a syllabus should accompany the UCC2 form when a change to the level of a course is requested. Please attach and resubmit.

Clarifications and attachments have now been received, and this proposal is being presented, once again, to the Graduate Curriculum Committee for review.

3. Course Number: AEB 6182
